# INTRODUCTION

The Board of Regents presents a report on the fall 1976 credit enrollment in West Virginia institutions of higher education. The cooperation of the private institutions in submission of head-count enrollment data for their colleges is greatly appreciated by the Board.

The Board's student enrollment reports are based on standardized data submitted by the institutions on forms developed by the Board's staff. The analysis of head-count enrollment was based on data reported on the Board's E forms. The analysis of full-time-equivalent enrollment was calculated from data reported on BOR Form CCT-1 (Credit Classes Taught). Full-time-equivalent enrollment is reported only for the public colleges and universities.

Head-count enrollment is a count of the number of individual students attending an institution of higher education. The tables in Section I of this report summarize credit head-count enrollment in all institutions of higher education in West Virginia. In addition, each institution's enrollment is reported by: sex of student, attendance status of student, level of student, and residence of student. The credit enrollment classifications of resident credit and extension credit used in previous reports have been combined into one classification, credit enrollment, for this report.

The full-time-equivalent enrollment reported for each public institution of higher education is the nationally accepted statistic used to equate to the norm, student work-loads that are greater or less than the average full-time student work-load. In Section II, the full-time-equivalent enrollment is reported by course level and by Regents budget format. Full-time-equivalent enrollment in the health science programs of West Virginia University, except for pharmacy, is excluded from this report.

Definitions of the various enrollment categories used by the Board are presented on Pages 50 and 51.

Due to the inclusion of the West Virginia School of Osteopathic Medicine for the first time (as a state institution and the future inclusion of the Medical School of Marshall University--Fall 1977), the Board has added a separate category to the tables of this report.

Finally, the Board is now reporting separate enrollment data for the Greenbrier Community College Center as a two-year branch of Bluefield State College.

# HIGHLIGHTS

Institutions of higher education in West Virginia enrolled a total of 81,021 students for credit during the 1976 fall semester (see Figure A). This was a net increase of 1,649 students, or 2.1 per cent over the fall of 1975.

Of the total 81,021 credit students enrolled, 70,488 students (87.0 per cent) were enrolled in public institutions. The private colleges enrolled 10,533 students (13.0 per cent of the total).

The 70,488 students enrolled in public institutions account for a 2.2 per cent increase over the fall 1975 enrollment of 68,962. The state universities collectively generated a 4.1 per cent increase. The West Virginia College of Graduate Studies experienced a 7.4 per cent decrease from 1975 to 1976.

The community colleges overall experienced a 6.5 per cent decrease this year. West Virginia Northern had the only community college increase, at 14.6 per cent. The state four-year colleges collectively experienced a 3.7 per cent increase. Bluefield State led the four-year colleges with an increase of 411 students (30.9 per cent).
